## **MESSAGE**

'Crime in Uttar Pradesh-2012' is now with you. We have been able to reduce delays in publishing this Annual Crime Report for U.P. I hope that the District Superintendents of Police would ensure speedier forwarding of crime data of 2013, which is by the end of 1<sup>st</sup> month of next year so that we are able to prepare the Annual Report for U.P. in time next year.

We have introduced two new chapters on subjects (Custodial Crimes and Cyber Crimes) of current importance and we hope that they will turn out to be quite useful for Police Officers, field officers, planners and researchers.

It gives me immense pleasure to commend Sri Ram Kishor I.P.S., Superintendent of Police, State Crime Records Bureau, U.P., Lucknow and the staff of Section-VI of S.C.R.B., led by Inspector Parashuram Doharey, whose sincere efforts and supervision this voluminous work could be completed in time.

Suggestions from the Senior Police Officers are invited to make the crime report better.

## **P R E F A C E**

Crime in U.P. – 2012 is the 23<sup>rd</sup> edition in the series of publications that was started by Sri G.N. Sinha, Ex-Director General of Police, (Tech. Services), U.P., Lucknow in the year 1991.

This compilation depicts the crime situation in the state through wide ranging crime statistics. It is hoped that this publication will continue to be interest to the readers. The format of this report is similar to the N.C.R.B. publication both in form and content.

'Crime in U.P.-2012' has been published on the basis of data supplied by various districts. It has been our experience that the data sent by most of the districts contains inaccuracies here and there. The district Superintendents of police are requested to pay due attention to the functioning of the D.C.R.B. and ensure timely and correct submission of data to the State Crime Records Bureau.

Before concluding I would like to thank Sri Ram Kishore S.P., S.C.R.B. and his staff for their valuable help in the computerization of data and subsequent printing of the text. I would also like to place on record the hard work of the staff of Section-VI of the S.C.R.B., especially Inspector Parashuram Doharey with his colleagues but for whose sincerity and devotion this publication would not have been possible.

May I take this opportunity to request all the district Superintendents of Police and other senior officers to send their suggestions and opinions so as to make this publication more useful in future.

## **INTRODUCTION**

*The 23<sup>rd</sup> edition of 'Crime in U.P.-2012' pertaining to crime data of the year-2012 is being forwarded with a slightly changed format.*

*Due to inordinate delay in obtaining from the Districts, publication of 'Crime in U.P.-2012' was not possible in time i.e. by beginning of 2013. We, thus seek co-operation of Districts S.S.P./Ss.P. in term of timely submission of required data so that this situation may be corrected.*

*This crime report has been prepared for Police Officers to have statistical data about crime and criminals at a glance to assist them in prevention & detection of crimes. It will also prove as a base book to the social workers and statistical officers. In addition, it offers us an opportunity to gauge as to what crime data reflects and what our future plans on crime management ought to be.*

*We honour the services rendered by Inspector Parashuram Doharey, S.I. Lalita Prasad, S.I. Anita Dubey and Constable Nagendra Singh posted in section-VI of S.C.R.B. for this exclusive compilation, tabulation and analytical work for this publication.*

*We eagerly look forward to your suggestions for better analysis that may be of evaluative and analytical importance to professional policing.*

## **INVESTIGATION**

## **CHAPTER - 3**

### **INVESTIGATION**

With a view to study on the various aspects related to investigation of cases by Police, Table-23 and 24 have been prepared for I.P.C. and L.L. & S.A. cases respectively.

### **DISPOSAL RATIO:**

A scrutiny of these two tables shows many interesting features. The disposal ratio for I.P.C. cases is (0.87) while it is (0.99) for Local Laws and Special Act cases. Disposal ratio for I.P.C. cases varies from (0.21) Theft to (0.94) Eve-teasing under section 294 IPC. As regard the L.L. & S.A. cases the lowest disposal ratio remained (0.65) for Dowry prohibition Act cases and highest (1.00) for Foreigners Registration Act and Protection of Civil Rights Act cases.

### **FALSE CHARGES :**

A study of tables 23 & 24 further reveals that column no. 11 indicates the ratio of cases found false to the total number of cases investigated. The ratio is highest for Dacoity (0.29) followed by Robbery (0.13) and Rape (0.12) while the heads under charge found false is very small number to total cases investigated are Cruelty by husband or other relatives u/s 498A I.P.C. (0.02) followed by Molestation and Cheating (0.03 each). This ratio is 0.05 for total I.P.C. cases.

As regard the L.L. & S.A. cases in which charges were found false are noticed in the head of Dowry Prohibition Act (0.04), Sc/St Act (0.07) while in other heads this percentage is either very small or no case reported in which charge found false.

It is crystal clear from the above analysis that while a remarkable number of I.P.C. cases (4.84 %) are dropped because of false charges, only 0.04 % of L.L. & S.A. cases except Dowry Prohibition Act and Sc/St Act were found false, which were 4.46 % and 7.67 % respectively.

### **CHARGE SHEET:**

Column 6 & 7 of these tables show that cases investigated and number of charge sheet submitted. In column 12 the ratio of charge sheet for I.P.C. cases is 0.56 viz (56 %) while this ratio for L.L. & S.A. is 0.98 (98 %). For I.P.C. cases this ratio is highest (0.94) for the head of Eve-teasing (under section 294 IPC) followed by u/s 509 I.P.C. (0.90) and Molestation (0.85). An analysis of this table also indicates that this ratio is very less in crime against property as compared to crime against body, as it is 0.21 for Theft, 0.26 for Burglary.

Similarly, the above ratio for L.L. & S.A. cases is 0.98, which means that 98 % of the total cases of L.L. & S.A. investigated by police in 2012, of which 100 % cases were charge sheeted under Foreigners Registration Act and Protection of Civil Rights Act, while the percentage of charge sheets remained lowest in cases registered under the Dowry Prohibition Act (48 %) followed by Antiquity and Art Treasure Act (60 %).

## **CHAPTER - 4**

### **TRIAL**

Table 25, 26, 27 and 28 have been prepared with a view to look into the aspects of trial of cases in 2012. Table 25 and 26 highlights the pendency and trial figures for I.P.C. and L.L. & S.A. crime-wise respectively, while table-27 shows the Range-wise disposal of I.P.C. cases and Table-28 presents the Range-wise disposal of L.L. & S.A. cases.

#### **TRIAL AND CONVICTION IN IPC CASES:**

Table-25 describes the percentage of conviction and the percentage of trial completed for different crime-heads under I.P.C. during the year 2012. A scrutiny of this table reveals that for I.P.C., the pending trial (P.T.) at the end of the year 2012 of other I.P.C. cases are highest (216413) followed by Theft (39396), Murder (28633), Attempt to commit Murder (19137), Cheating (21012) and Riots (17732). If discussion on other I.P.C. cases excluded then the highest percentage of trial completed is under head 'Eve-teasing' (26.67 %) followed by 'Rape' (21.86 %) and 'Riots' (15.68 %). In the other head lowest percentage of trial completed is recorded for 'Dacoity' (10.07 %) followed by 'Murder' (10.83 %) and 'Counterfeiting' (11.10 %). As regard the conviction, it remains for Molestation (63.98 %) followed by Eve-teasing (61.95 %) and Theft & Counterfeiting (60.43 % and 60.87 % respectively). Below 50 % conviction are recorded under heads Murder, Attempt to commit Murder, C.H. not amounting to Murder, Kidnapping and Abduction, Dowry Deaths, Cruelty by husband or other relatives, Criminal Breach of Trust and Cheating.

#### **TRIAL AND CONVICTION IN L.L. & S.A. CASES:**

Table-26 highlights percentage of conviction and trial for different crime heads of L.L. & S.A. along with pendency of trial cases in 2012. This table further reveals that at the end of 2011, the highest number of cases were pending trial under head Other L.L. & S.A. cases (731167) followed by Arms Act (146659), Excise Act (101869), N.D.P.S. Act (45571), Gambling Act (17372), Explosive Act (8971) and E.C. Act (4313) and in the year 2012 number of cases sent for trial were also highest in the same order. In order to have complete discussion on Homicide, the case registered under section 302 IPC and section 304 IPC have been clubbed together to get figure of Homicide. Three tables have been prepared and appended to analysis the Motive of Homicide in 2012.

A study of table -54 reveals the number of cases under 12 different heads of Motives and their percentage to all total in 2012. This table further reveals that the incidence of Homicide (6376) has slight decreased by -0.4 % as compared to the previous year 2011 (6405). The highest incidence (327) of homicide accounting for 5.13 % to the total cases of Homicide was reported for 'Love Affairs'. The other significant cases were 'Gain' (133) (2.09 %), Property Disputes (157) (2.46 %), 'Enmity' (244) (3.83 %), Communalism (3) (0.05 %), 'Casteism' (1) (0.02 %) and 'Political' (2) (0.03 %). The highest number of cases for 'Gain' was reported in District Ghaziabad and Fatehpur (7 each) followed by Moradabad, Kanpur Nagar and Jalaun (6 each) and Bareilly, Faizabad, Ghazipur and Kanpur Dehat (5 each). The highest incidence under motive 'property disputes' was reported in district Ghazipur (11) followed by Buland Shahar and Lucknow (9 each) and Azamgarh (6). Maximum number of cases of Enmity were reported in District Sitapur and Chitrakoot (9 each) followed by Buland Shahar, Amroha, Ghazipur, and Jhansi (8 each) and Ghaziabad, Baghpat, Bareilly, Pilibhit, Banda and Aligarh (7 each). ### **ROAD HOLD UP**

With a view to discuss seasonal variation in crime and problem areas etc.. A Range has been taken as a Unit to make analysis manageable as well as useful.

Incidence of Road Hold-up crime is shown in table-57 and 58. From this table it is apparent that in the year 2012 only 1 case of Road Hold-Up is registered in Agra Range and this incidence was occurred in month of May, while in the year 2010 and 2011 there was a remarkable decline in Road Hold-Up crimes. In the past year 2009 total 2 crimes of Road Hold-Ups occurred of which 1 case was reported in Meerut Range and 1 case was reported in Faizabad Range but it is no crime of Road Hold-Up happened in the state in the year 2010 and 2011.

The relevant tables are 57 and 58 and the graphs from 96 to 114 which are appended to the chapter.

These tables have been prepared for incidence of Road Hold-up on the basis of fortnightly crime report of second fortnight of December 2012.

## **CHAPTER-10**

### **KIDNAPPING FOR RANSOM**

With a view to study the pattern of crime i.e. seasonal variation, problem areas etc.. Range has been taken as a Unit for analysis so that study is manageable as well as useful.

The relevant Table-59 is prepared on the basis of month-wise F.C.Rs. of 2012 and has been plotted against the month-wise crime of each Range to compare the pattern of Range which is emerging out of state average. Not an increasing or decreasing trend in cases of kidnapping for ransom has been observed during 2009-2010. The increasing trend in the incidence of kidnapping for 'Ransom' (72 cases) has been observed during the year 2011. These cases reported a decrease of -8.3 % in 2012 over 2011. Agra Range has reported the highest number of Kidnapping for ransom cases (23) accounting for 34.8 % of total (66) cases in 2012.

#### **LINE GRAPH COMPARISON:**

The relevant graphs 115 to 133 are appended to the chapter. Comparison reveals that:-

- (a) Meerut, Agra and Aligarh are the worst affected Ranges.
- (b) Faizabad, Varanasi and Allahabad are the least affected Ranges.
- (c) In Ranges Devipatan, Basti, Mirzapur, Chitrakoot Dham and G.R.P. no single case of kidnapping for ransom was reported.
- (d) Agra is the Range where cases of Kidnapping for Ransom have been reported throughout the year and Meerut Range from where these cases also reported throughout the year except month of March, May to July and September.

#### **RECOVERY COMPARISON:**

Table-60 presents the details of Kidnapping for all Ranges except Devipatan, Basti, Mirzapur, Chitrakoot Dham and G.R.P. The maximum number of persons were Kidnapped in Agra Range (23) accounting for 34.8 % of total kidnapped (66) followed by Meerut Range (12) (18.1 %), Aligarh Range (5) (7.5 %).

During the year 2012, a total of 66 persons were Kidnapped for Ransom, of which only 3 were Girls, 34 Boys and 29 Men. No woman kidnapped for ransom during 2012. Amongst the recovery of kidnapped persons 59 recovered by police and 7 remained for recovery. Out of 34 boys 30 recovered by Police only 4 boys remained for recovery at the end of the year.

Table-60 further reveals that out of 66 Kidnapped persons, Police made recovery of 59 persons which is (89.3 %) of the total kidnapped while 7 (10.6 %) persons remained untraced and pending for recovery at the end of the year 2012.

The highest number of accused involved in kidnapping were in Agra Range (93) accounting for 32.2 % followed by Meerut Range (68) 23.5 % and Aligarh Range (28) 9.7 % out of total number of 289 accused only 257 (88.9 %) were arrested while 25 surrendered (8.6 %). During this year 257 (88.9 %) accused were charge sheeted and against 32 (11.1 %) accused investigation remained pending at the end of the year 2012.

# **CHAPTER-11**

## **CRIME AGAINST WOMEN**

Although women may be victims of any of the general crimes such as 'Murder', 'Robbery', 'Cheating' etc., only the crimes which are directed specifically against women are characterized as 'Crime against Women'. Various new legislation have been brought and amendments have been made in existing laws with a view to handle these crimes effectively. These are broadly classified under two categories.

### **(1) THE CRIMES UNDER THE INDIAN PENAL CODE (IPC)**

- (i) Rape (sec. 376 IPC)
- (ii) Kidnapping & Abduction for specified purposes (sec. 363-373 IPC)
- (iii) Homicide for Dowry, Dowry Deaths or their attempts (sec. 302/304B IPC)
- (iv) Torture both mental and physical (sec. 498A IPC)
- (v) Molestation (sec. 354 IPC)
- (vi) Eve-teasing (under sec. 294 IPC & under sec. 509 IPC)
- (vii) Importation of girls (upto 21 years of age) (sec. 366B IPC)

### **(2) THE CRIME UNDER THE LOCAL LAWS & SPECIAL ACTS. (L.L. & S.A.)**

Although all laws are not gender specific, the provisions law affecting women significantly have been reviewed periodically and amendments carried out to keep pace with the emerging requirements. The gender specific laws for which crime statistics are recorded throughout the state are-

- (i) Immoral Traffic (Prevention) Act 1956
- (ii) Dowry Prohibition Act 1961
- (iii) Indecent Representation of Women (Prohibition) Act 1986
- (iv) Commission of sati (Prevention) Act 1987

## CHAPTER-12

### CRIME AGAINST PERSONS BELONGING TO SCs/STs

Special social enactments have come into force from time to time for SCs and STs in order to uphold the constitutional mandate and safeguard the interest of this section of the society.

The major legal enactments at the national level are:

- (i) Protection of civil rights act- 1955.
- (ii) Scheduled caste/Scheduled tribe (prevention of atrocities) act-1989.

The protection of civil rights act-1955 was enacted in furtherance of article 17 of the constitution to abolish untouchability and its practice in any form. The scheduled casts and scheduled tribes (prevention of atrocities) act-1989 was brought into force from 30th January 1990 in order to check and deter crimes against SCs/STs by persons belonging to other communities. Special courts have been established in Uttar Pradesh state for speedy trial of cases registered exclusively under these acts.

#### CLASSIFICATION OF CRIMES:

The crimes against scheduled casts/scheduled tribes are broadly categorized under two major heads;

## RECIDIVISM

The habit of relapsing into crimes by the criminals is known as Recidivism and the Recidivist is a person who relapses into crime again and again. The district-wise number of recidivists (past offenders) under IPC crimes during 2012 are shown in Table-75. The share of recidivists among all offenders has increased to 1.11 % during 2012 as compared to 0.81 % in 2011. In absolute terms, the number of past offenders involved in repeating IPC crimes during 2012 was 4572 as compared to 3132 during 2011 accounting for an increase of 45.97 % in 2012 over 2011.

Table-75 describes that during 2012 a total number of 412811 persons were arrested for committing various IPC crimes of these 408239 (98.89 %) were new offenders. Out of total 4572 recidivists, 3978 (87.0 %) were convicted once in the past whereas 436 (9.5 %) were convicted twice and only 158 (3.5 %) were habituated offenders convicted three time or more in the past.

The following table shows conviction frequency of recidivists during 2008-2012.

2	2009	2564	1837	591	136
3	2010	2145	1562	507	76
4	2011	3132	2391	611	130

## **Cyber CRIME**

---

## **CHAPTER-18**

### **CYBER CRIMES**

Cyber-crime, Computer crime, E-crime or Hi-tech crime generally refers to criminal activity where in a computer is a tool or a target, or both.

Thus the term cyber-crime is used to include criminal activity in which the computer or internet is a necessary part of the crime. These terms are also sometimes used to include traditional crimes, such as fraud, theft, blackmail, forgery and embezzlement in which computers or networks are used to facilitate the illicit activity.

**Computer as a tool:** When the individual or the computer user is the main target of cyber-crime, the computer can be considered as the tool rather than the target. These crimes generally involve less technical expertise as world. The damage dealt is largely psychological and intangible, making legal action against the variants more difficult. These are the crimes which have existed for centuries in the offline. Seams, theft and the likes have existed even before the development in high-tech equipment. The same criminal has simply been given a tool which increases his potential pool of victims and makes him all the harder to trace and apprehend.

**Computer as a target:** In these cyber offences the computer is itself the target. These crimes are committed by a selected group of criminals. Unlike crimes using the computer as a tool, These crimes requires the technical are relatively new, having been in existence for only as long as computers have which explains how unprepared society and the world in general are to words combating these crimes. There are numerous crimes of this nature committed daily on the internet.

Cyber-crimes can be basically divided into 3 major categories:

- 1- Cyber-crime against person.
- 2- Cyber-crime against technology.
- 3- Cyber-crime against property which include financial crimes with use of computers and internet.

Cyber-crime against persons includes:

- A- Cyber pornography/Obscenity.
- B- Defamation and
- C- Cyber stalking.

#### **Cyber pornography:**

Cyber pornography is publishing /transmitting/ distributing of textual or pictorial information, which is obscene, lascivious in nature in electronic form. This can be by having a profile on a website, giving an e-mail, through chat, SMS, MMS etc. Pornography or porn is the explicit depiction of sexual subject matter with the sole intention of sexually exciting the viewer. It is to a certain extent similar to erotica, which is the use of sexually arousing imagery.

## **Cyber Defamation:**

Defamation is an act of imputing any person with intent to lower the person in the estimation of the right-thinking members of society generally do or to cause him to be shunned or avoided or to expose him to hatred, contempt or ridicule. Cyber defamation is not different from conventional defamation except the involvement of a virtual medium. In precise this is any derogatory statement, which is designed to injure a person's business or reputation. Hosting defamatory message sending anonymous message to defame others etc. come under this category.

## **Cyber stalking**

Although there is no universally accepted definition of cyber stalking, the term generally is defined as the use of information and communication technology, particularly individuals to harass another individual, group of individuals, or organization. The behavior includes false accusation, monitoring the transmission of threats, identity theft, damage to data or equipment, the solicitation of minors for sexual purposes and gathering information for harassment purposes. The harassment must be such that a reasonable person in possession of the same information would regard it as sufficient to cause another reasonable person distress. Further it involves harassing or threatening behaviors that an individual engages in repeatedly, such as following a person, appearing at a person's home or highest of business, making harassing phone calls, leaving written message or objects or vandalizing a person's property.

Cyber-crimes against technology include:

- A-Hacking,
- B-Denial of service attack,
- C- Virus and worm attacks etc.

## **Computer Hacking:**

Computer hacking is the practice of modifying computer hardware and software to accomplish goal outside of the creator's original purpose.

## **Denial of service attack:**

A denial of service attack (DOS attack) or distributed denial of service attack (DDOS attack) is an attempt to make a computer resource unavailable to its intended users. Perpetrators of DOS attacks typically target sites or services hosted on high-profile web servers such as banks, credit card payment gateways and even DNS root servers.

## **Computer virus and worm attack:**

A computer worm is a self-replicating computer program. It uses a network to send copies of itself to other nodes (computer terminals on the network) and it may do so without any user intervention. Unlike a virus, it does not need to attach itself to an existing program. Worms almost always cause harm to the network, it only by consuming bandwidth, whereas viruses almost always corrupt or modify files on a targeted computer. Cyber-crimes against property include (A) Piracy, (B) Phishing, (C) Nigerian fraud etc.

Cyber Crimes are a new class of crimes rapidly increasing due to extensive use of Internet and I.T. enabled services.

The Information Technology (IT) Act, 2000, specifies the acts which are punishable. Since the primary objective of this Act is to create an enabling environment for commercial use of I.T., certain specific omissions and commissions of criminals while using computers have not been included. Several offences having bearing on cyber arena are also registered under the appropriate sections of the IPC with the legal recognition of Electronic Records and the amendments made in several sections of the IPC vide IT Act, 2000.

The statistics on Cyber Crimes are collected under the following heads:

- i) Offences registered under the Information Technology Act 2000.
- ii) Offences under the IPC (with use of Computers)

#### **i) Information Technology Act 2000:**

The Information Technology Act 2000 (IT ACT- 2000) is an Act of the Indian Parliament (No. 21 of 2000) noticed on October 17, 2000.

Information Technology Act 2000 consists of 94 sections segregated into 13 chapters. Four schedules form part of the Act. In chapter XI the offences are prescribed.

#### **65. Tempering with computer source documents-**

### Information Technology (Amendment) Act 2010:

However the IT Act 2000 was amended and a new Act i.e. Information Technology (Amendment) Act 2010 has come in to force in the year 2011.

The new Act as many as 11 pend section i.e.

**Section 65:** Tempering with computer source documents.

**Section 66:** Computer related offences like unauthorized copying, extracting information, introducing virus or computer contaminant, denied of service attack.

**Section 66B:** Punishment for dishonestly receiving stolen computer resource or communication device.

**Section 66C:** Punishment for identity theft.

**Section 66D:** Punishment for cheating by personation by using computer resource.

**Section 66E:** Punishment for violation of privacy.

**Section 66F:** Punishment for cyber terrorism.

**Section 67:** Punishment for publishing or transmitting obscene material in electronic form.

**Section 67A:** Punishment for publishing or transmitting of material containing sexually explicit Act etc. in electronic form.

**Section 67B:** Punishment for publishing or transmitting of material depicting children in sexually explicit act etc. in electronic form.

### **Offences under the IPC**

However the provisions of Indian penal code can also be invoked to deal with cyber-crimes. Sending threatening message by e-mail is punishable under section 506 I.P.C. Sending defamatory messages by e-mail section 499 and 500 IPC. Forgery of electronic records is an offence as per section 463 IPC and Bogus Websites, cyber fraud like Nigerian fraud and Phishing punishable as per section 420 IPC. If there is online sale of drugs NDPS Act can be invoked.

It can be concluded with note that cyber-crime is the latest and perhaps the most complicated problem in the cyber world. Capacity of human mind is unfathomable. It is not possible to eliminate cyber-crime from cyber space. It is quite possible to check them with that aim in mind Govt. of India has come with I.T. Act 2000 at a time when cyber-specific legislation was much needed. It has filled up the lacuna for a law in the field of e-commerce and cyber-crimes. Yet some more legal issues like copy right with regard to web contents, domain name disputes, liability of cyber cafes have not been addressed.

### **Cyber Crimes - Cases of Various Categories under IT Act, 2000**

Table-85 reveals, 205 cases were registered under IT Act during the year 2012 as compared to 101 cases during the previous year (2011) thereby reporting an increase of 102.97 % in 2012 over 2011. 3500.0 % cases (36 out of 205 cases) were reported from Azamgarh Range followed by Meerut Range (29) and Agra Range (28).

44.39 % (91 cases) of the total 205 cases registered under section 66(1) of the IT Act 2000 were related to Loss/damage to computer resource/utility reported

under hacking with computer systems. 48 persons were arrested for committing such offences during the year 2012. Out of total (105) Hacking cases, the cases relating to Loss / Damage of computer resource/utility under Sec 66(1) of the IT Act were 86.67 % (91 cases) whereas the cases related to Hacking under Section 66(2) of IT Act were 13.3 % (14 cases). There were 26 cases of 'Obscene publications/ transmission in electronic form' during the year 2012 wherein 41 persons were arrested in Table-86.

The age group wise profile of the offenders arrested under IT Act, 2000 reveals that 53.57% of the offenders arrested were in the age group of 18-30 years (60 out of 112) followed by 41.96 % of the offenders were in the age group of 30-45 years (47 out of 112) and 3.57 % of the offenders were in the age group of 45-60 years and only 1 offenders was in the age group of above 60 years. Further details on the crime head-wise and age group-wise profiles may be seen in Table- 87.

### **Incidents of Cyber Crimes registered under IPC**

Information on the cases registered under various sections of IPC which were considered as Cyber Crimes at State level is presented in Table 86.

### **Cyber Crimes - Cases of Various Categories under IPC Section**

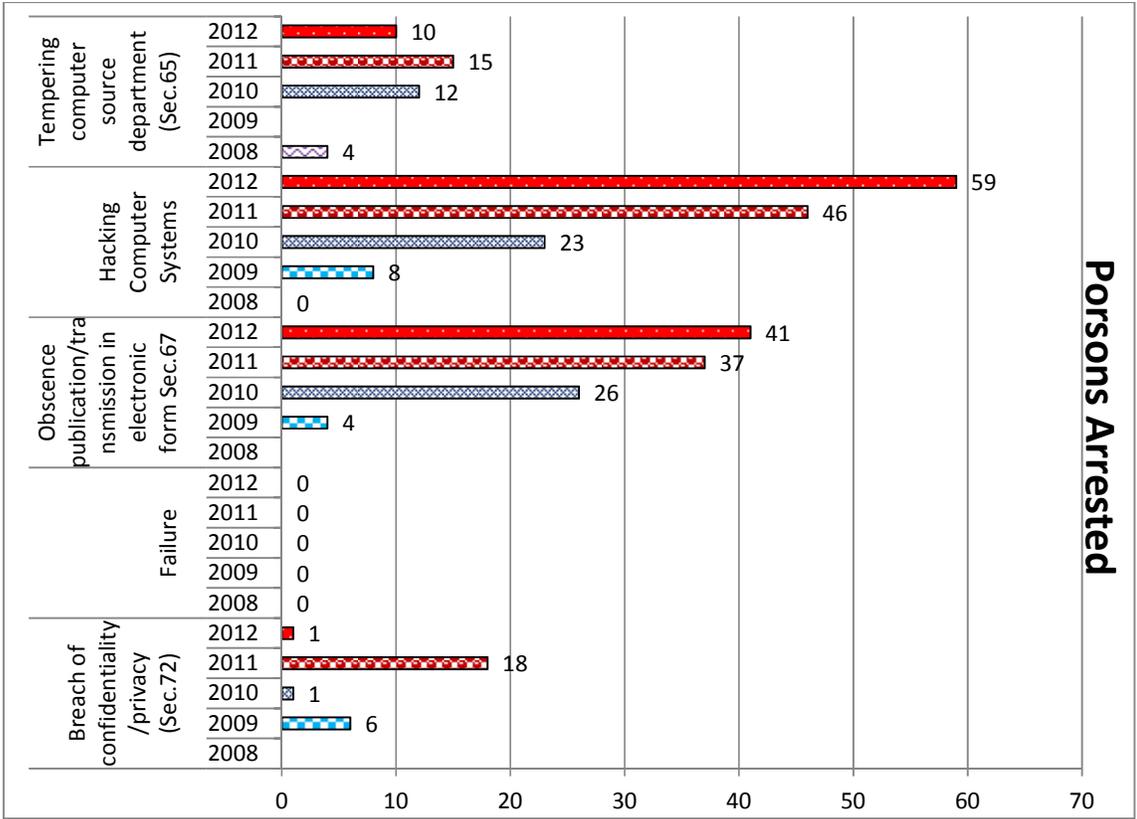

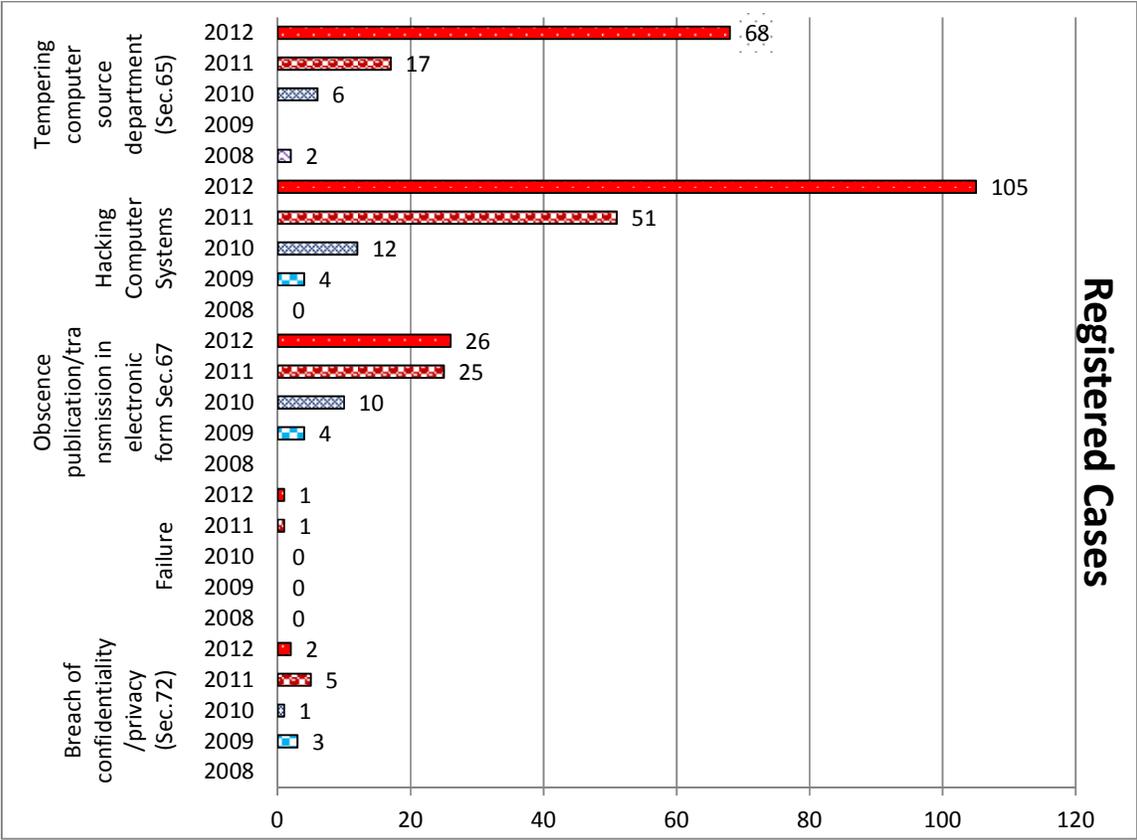

A total of 44 cases were registered under IPC Sections during the year 2012 as compared to 13 such cases during 2011 thereby reporting an increase of 238.46 %. Majority of the crimes out of total 44 cases registered under I.P.C. fall under 2 categories viz. Forgery (30) accounted for 0.28 % out of the 10713 cases reported under Cheating and Criminal Breach of Trust or Fraud (11) accounted for 0.30 % of the total Criminal Breach of Trust cases under IPC (3638) and 3 cases of Destruction of electronic evidence 6.8 % of the total 44 cyber-crime cases which were registered under I.P.C. The cyber Forgery (30 cases) accounted for 68.9 % out of the 44 cases reported under I.P.C. The cyber Fraud (11) accounted for 25.0 % of the total cases under I.P.C. (44). Azamgarh and Allahabad Range reported maximum number of such cases (10 each out of 44 cases) followed by Lucknow and Basti Rang (7 cases each) and Meerut Range (4 Cases).

Crime head-wise and age wise profile of the offenders who were arrested under Cyber Crimes (IPC) (Table 87) for the year 2012 reveals that offenders involved in Forgery cases were more in the age-group of 30-45 (54.90 %) 28 out of 51. 56.25 % of the persons arrested under Criminal Breach of Trust / Cyber Fraud offences were in the age group 18-30 years (9 out of 16).
